

***Allowable Subject Matter***

1. Claims 21-54 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 21 recites, inter alia, measuring a value of said first free-wheeling current; controlling the switching of said second switch responsive to said value of said first free-wheeling current; and regulating power from said power supply unit.

Claim 37 recites, inter alia, a first means for measuring a first free-wheeling current flowing through said first free-wheeling current path; and a second free-wheeling current path comprising: a second switch connected in series with said inductive converter, said second switch operable between an "On" position and a "Off" position; and a second means for measuring a second free-wheeling current flowing through said second free-wheeling current path.

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include either of the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
